

- Hospitality/Catering Rider Slash n' Roses -

Please keep in mind that the band is far from home and ask for these items to help make a long trip in an unfamiliar setting a little bit easier.

You will find the band very down to earth and easy to work with and we would definitely appreciate you doing your best to provide the items requested.

CATERING

TRAVELING PARTY: 6 PERSONS (NO VEGANS)

At their arrival the band will be very happy to find the following provided:

- 1 basket of fruit (bananas, apples etc.)
- Cookies and assorted sweets
- Tea & coffee, milk & sugar
- 24 Small bottles of uncarbonated water (NO BUBBLES!)
- 2 liters of Good quality fruit juice
- 3 crates of good quality beer
- 24 Cans of soft drinks (Coke, Fanta, Sprite etc.)
- 6 Cans of Red Bull
- 1 bottle of Jack Daniels
- 1 bottle of Chardonnay

If possible, we like them cooled. Please make sure there is plenty of the above for the entire crew. Also if we're running low we are free to order more of the above. If the venue requires tickets at the bar, or when there are no drinks backstage, then please make sure there are unlimited drinks for the band and the crew.

GUESTLIST

A minimum of 6 persons. List will be provided by band upon arrival. Please provide backstage passes for special guests (for example our booker or family) if passes are required.

DINNER

6 HEALTHY hot meals, with salad aside. If you don't serve dinner at the venue a 15 Euro (local currency) buy out per person have to be paid to the band before soundcheck. The band likes to have a break of at least 2 hours between dinner and showtime.

BACKSTAGE

The backstage room has to be separated from the other bands and the audience, either lockable or watched by security.

Absolutely **NO ONE** is to be admitted into the dressing room without the band's approval. Please provide enough seats and a table.

The band would like toilet facilities in close proximity to the dressing room and if possible with hot and cold running water.

If wireless internet is available, please put login details in the backstage room.

LOADING/PARKING

From load in and for load out, if available, we could use some help from:

- Two (2) stagehands to help load in and out of the venue (in case of a long way or stairs, this number increases to three).
- A fully authorized representative of the local promotor and/or themselves, able to make decisions on all possible levels.
From arrival, there has to be parking space for 4 cars at the loading dock/entrance of the venue. Possible parking fees are paid by the promotor.

RECORDINGS

No audio- or video recordings are allowed without permission of the band.

Photographers are very welcome.

SLEEPING ACCOMODATION

In case a sleeping place is needed, please also arrange a 6 PERSON breakfast and a late check-out (not before 11:00 a.m.).
